

Safety Direct™

The Cost Effective WH&S Solution

Safety Direct™ is a complete, cost effective WH&S Management System. It is easily tailored to your needs. It's fast to set-up and does not require dedicated staffing. When changes occur to legislation, standards or codes, you are immediately advised of those changes and the steps needed for continuing compliance. Safety Direct™ is a total solution!

Online Work Health & Safety Management System

When you invest in Safety Direct™ you get immediate access to seven key, extensively documented and detailed resources covering:

- Policy, commitment and planning;
- System planning;
- Compliance management;
- Managing specific work environment risks;
- Managing specific equipment risks;
- Monitoring, reporting and evaluation;
- Review and continual improvement.

Your membership includes many sample forms that support the WH&S policy and procedures that can be tailored to your specific requirements. You will also have access to safety professionals to assist you with your questions and development of new procedures.
