

CHIEF FIRE WARDEN / FIRE WARDEN

This course is for all persons who fill a management role in the organisation

COURSE OUTLINE

The Fire Warden course equips participants with the additional skills to assume the responsibilities of a fire warden, floor warden or member of an Emergency Control Organisation. Participants will learn and understand the role of fire warden in the workplace. Prior to course commencement a copy of the organisations evacuation procedures is requested so these can be incorporated into the training to specifically meet client requirements
